ABOUT

Asian Design House Co., Ltd. was established in 2004 with the mission to deliver distinctive decorative lightings and decorative products with outstanding quality at the affordable price worldwide. Our core value and competency have always been to make the best use of natural resources and turn them into a modern product with the reflection of its core beauty – mother nature. We target the use of natural resources in Thailand in the most sustainable way possible. In 2006, we began to manufacture and promote wooden lamps inspired by shapes of nature. We are now into the 15th year of our journey, the company has grown substantially with increasing interest from international clients and partners who appreciate mother nature like we do. Now we are serving clientele from more than 50 countries around the world.
